

The True History of “Palestine” - Palestine Never Existed

1. The Real Truth About Palestine & Israel Conflict (AKA The Middle East Problem) - <https://youtu.be/NdKc2sJJwoc> and/or <https://youtu.be/8EDW88CBo-8>

- a. The above two links are the same video, but they are posted under two different names on YouTube. In case, YouTube ever deletes these videos (as they so frequently do with anything truthful because they pretend it's "hate speech" or misinformation), I've included the text of everything said in these two videos (see below **red text**).

"In 1947, the UN voted to divide the land called Palestine (not a country) into a Jewish state and an Arab state. The Jews accepted the United Nations partition but no Arab or any other Muslim country accepted it. When British rule ended on May 15, 1948, the armies of all the neighboring Arab states (i.e. Lebanon, Syria, Iraq, Jordan and Egypt) attacked the one-day old state of Israel in order to destroy it but to the world's surprise the little Jewish state survived. Then it happened again.

In 1967, the dictator of Egypt Abdel Nasser announced his plan in his words to "destroy Israel". He placed Egyptian troops on Israel's border and armies of surrounding Arab countries were also mobilized to attack. However, Israel preemptively attacked Egypt and Syria. Israel did not attack Jordan and begged Jordan's King to not join the war, but he did and only because of that did Israel take control of Jordanian land, specifically the West Bank of the Jordan River. Shortly after the war the Arab states went to Khartoum, Sudan and announced their famous Three No's.

1. No Recognition
2. No Peace
3. No Negotiations

What was Israel supposed to do? Well, one thing Israel did a little more than a decade later in 1978, was to give the entire Sinai Peninsula an area of land bigger than Israel itself and with oil back to Egypt because Egypt under new leadership signed a peace agreement with Israel. So, Israel gave land for the promise of peace with Egypt and it has always been willing to do the same thing with the "Palestinians".

All the so called "Palestinians" have ever had to do is recognize Israel as a Jewish state and to promise to live in peace with it but when Israel has proposed trading land for peace as it did in 2000, when it agreed to give Palestinians a sovereign state in more than 95%+ of the West Bank and all of Gaza, the Palestinian leadership rejected the offer and instead responded by sending waves of suicide terrorists into Israel.

Meanwhile, Palestinian radio, television and school curricula remained filled with glorification of terrorists, demonization of Jews and the daily repeated message that Israel should cease to exist.

It is a simple problem to describe...One side wants the other dead. If they didn't, then there would be peace. Please remember this, there has never been a state in the geographic area known as Palestine that was not Jewish. Israel is the third Jewish state to exist in that area. There was never an Arab state, never a Palestinian state, never a Muslim or any other state. That's the issue. Why can't the one Jewish state the size of El Salvador be allowed to exist. That's the Middle East problem." - Dennis Prager

2. **Why Isn't There a Palestinian State?** - <https://youtu.be/76NytvQAls0?feature=shared>

4. **The Philistines Were Actually Aegean (Greek) NOT Arabs** - <https://www.jewishvirtuallibrary.org/origin-of-quot-palestine-quot> and www.nowtheendbegins.com/state-palestine-never-existed-anywhere-middle-east-ever-world-history
 - a. The words "Palestine" or "Filastin" do not appear in the [Koran](#).
 - b. **Philistines, Ancient and Modern** - The original Philistines were a people who occupied the southern coast of Palestine more than 3,000 years ago. Enemies of the ancient Israelites, they were portrayed in

the Bible as a crude and warlike race. This led to the use of Philistine in English to refer, humorously, to an enemy into whose hands one had fallen or might fall. Several centuries later, an extended sense of philistine denoting “a materialistic person who is disdainful of intellectual or artistic values” came into being as a result of the following: a violent town-gown conflict in the German university town of Jena in the 17th century prompted a local clergyman to address the events in a sermon in which he alluded to the Biblical Philistines. This caused the university students to apply the German word Philister (equivalent to English Philistine) to the townspeople, whom they perceived as unenlightened and hostile to education. English speakers familiar with the story began using philistine in this way by the early 1800s, soon extending its reference to any enemy of culture. The “anti-intellectual” sense of philistine was popularized by the writer Matthew Arnold, who famously applied it to members of the English middle class in his book Culture and Anarchy (1869).

- c. The name "Palestine" is believed to be derived from the Egyptian and Hebrew word peleshet. Roughly translated to mean rolling or migratory, the term was used to describe the inhabitants of the land to the northeast of Egypt – the Philistines. The Philistines were an Aegean people – more closely related to the Greeks and with no connection ethnically, linguistically or historically with Arabia – who conquered in the 12th Century BCE the Mediterranean coastal plain that is now Israel and Gaza. A derivative of the name Palestine first appears in Greek literature in the 5th Century BCE when the historian Herodotus called the area Palaistine. In the 2nd century CE, the Romans crushed the revolt of Shimon Bar Kokhba (132 CE), during which Jerusalem and Judea were regained and the area of Judea was renamed by the Roman Emperor Hadrian Palaestina in an attempt to minimize Jewish identification with the land of Israel.

5. What Does Islam Teach About Deception, Lying, and Taqiyya? -
